G A D G
Street lights, a Halloween moon tryin' to outshine you
A D
You know it's hard to be a star
G A D G
Walkin' the city streets you made a crooked path
A D
Tears in your eyes, you're looking for a laugh

G A
You are that bird that flies forever
F#m Bm
And it's such a long way down
G D
Haven't you heard, you've got the magic words?

Some joke I tried to make up knocked you down again You know it's hard to be a ham When all I wanted was to give you back your smile Traded you trouble for a little while

You are that bird that flies forever Don't let 'em bring you down Haven't you heard, you've got the magic words?

These slippery words, they can mean magic or a curse Isn't it funny I'd tell you in this verse? What's worse is I think I know just the way you feel I have been walking on a smaller scale.

You are that bird that flies forever I can't write you down Haven't you heard, you've got the magic words?

Lookin' for order, I have found you make your own, Everything's given on extended loan And all I want is to be able to be free To take the love that's given to me

You are that bird that flies forever And it's such a long way down Haven't you heard, you've got the magic words?
